

Professionals & Services.

At Manry Rawls, we pride ourselves on implementing insurance and risk control programs that position our clients confidently in the marketplace and help to protect their livelihood.

Because professional service firms have highly specialized risks, identifying the appropriate coverages and risk control solutions can be complicated. We are ourselves a professional services firm and have invested significant resources in developing programs that address and mitigate the unique risks of professional organizations.

The threat of exposures affecting reputations and revenue streams can be overwhelming. By providing a blanket of protection that is tailored specifically to a firm's needs and culture, we are able to address the biggest concerns of our clients and put their minds at ease.

Our clients include law firms, certified public accountants, architects, engineers, financial institutions, consultants, counselors, and other specialized service providers. We understand that professional service firms must protect not only the privacy, security and confidentiality of their own information, but also that of their valued clients.

By partnering with each firm to assess their existing internal controls, we are able to develop and implement programs that protect their businesses and specifically address their unique needs.

Some of the key coverages provided include:

- Professional Liability
- Errors & Omissions
- Directors & Officers
- Crime
- Employment Practices Liability
- Kidnap & Ransom
- Intellectual Property
- Cyber Risk
- Environmental

We deliver the solutions that give our clients a true competitive advantage. We make your professional firm feel at Home with Manry Rawls.
